

CB-11 UHF/VHF Distribution Amp

Features:

- Designed for cable /TV full band amplification and distribution adaptor powered, sleek exterior, ideal for indoor use.
- SMT Technology ensures high reliability and durability.
- RFI shielded metal housing provides excellent isolation to external interference.
- LED display power ON.
- Maximum 20 dB gain adjustment for each output.

Specifications:

- Frequency range: 40-862 MHz
- Gain: 20 dB(40-750 MHz) 750-850 MHz 10dB
- Gain Control: 0-20 dB
- Noise Figure: Less than 5 dB
- Max. Output level at -60 dB intermodulation distortion: 90dB uV
- Input: 75 ohm, F-Connector x 1
- Output: 75 ohm, F-connector x 4
- Power Supply: DC 12V 200mA Center positive
